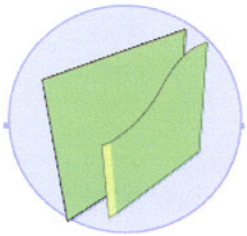
Gyproc SAINT-GOBAIN

Product Data Sheet

Sr No – 0004
Dt– 20/04/12

Description: - Gyproc® Moisture Resistant



Characteristics: Gypsum plasterboard with water repellent additives in the core firmly bonded with strong paper liners.

Application:
Suitable as a base for tiling in wet use areas.

Applicable Standard: IS 2095 (Part 1):2011

Properties
Thermal Conductivity: 0.24 (w/m°K)
Thermal resistance: 0.039 for 9.5mm thick board
0.052 for 12.5mm thick board
0.062 for 15mm thick board

Board Colour: Green face paper
Green reverse side paper

ORIGINAL

Edges: Taper edge along length of board
Square edge along width of board

Flexural breaking load of Gyproc® Moisture Resistant as per IS 2095 (Part 1):2011

Width mm	Length mm	Transverse Direction (N)	Longitudinal Direction (N)
9.5mm board			
1219	1829	140	360
12.5mm board			
1219	1829	180	500
1219	2438	180	500
15mm board			
1219	1829	220	650
1219	2438	220	650
