SANIMUF

- Ideal for treatment against moulds and algae
- Colourless / Sodium hypochlorite - free
- It does not form a film

Description	Aqueous solution of fungicide and algaecide substances suitable for the pre - treatment of wall surfaces infested by moulds and algae. In combination with paints « SANAMUR SILVER », « SANAMUR », « CASA PURA », « MUROVIVO », it prevents the formation and proliferation of mould and algae on surfaces over time.
Use	Apply the product on infested surfaces and in neighbouring areas. After 24 hours, clean the treated surface, by brushing, scraping or sanding. Completely eliminate residues. In case of high mould concentrations, repeat the treatment.
specific weight	1,0 kg / litre
VOC	20 gr / litre
estimated yield	About 9 - 10 m^2 / litre
Note	Do not brush the surfaces before the treatment in order to prevent the spread of mould spores in other areas.
Application	Hard bristle brush; push on the surface to be treated to facilitate penetration in depth.
