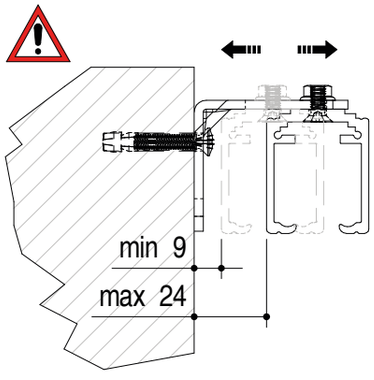
- Fixing screws for components
  *Visserie pour la fixation des composants*

The kit supplied with the external wall-mounted track includes all the accessories required for installing this product.

*Le kit fourni avec le rail extérieur mural comprend tous les accessoires nécessaires au montage de ce produit.*



**Attention!**
During product installation, it is possible to adjust the wall anchoring bracket to set the position of the track (and consequently of the door panel). This allows the correct distance from the wall to be obtained, suitable for the installation of either a traditional skirting board or a flush-to-wall skirting board.

Lors de l'installation du produit, il est possible d'intervenir sur l'équerre de fixation murale afin de régler la position du rail (et par conséquent du panneau de porte). Cela permet d'obtenir la distance correcte par rapport au mur, adaptée à l'installation d'une plinthe classique ou d'une plinthe affleurante.
